

Weather and Seasons

Name: _____

Date: _____

Grade: Grade 2

Part A: Multiple Choice

Circle the best answer for each question.

1. What is the first step of the water cycle?

- A) Precipitation
- B) Condensation
- C) Evaporation
- D) Collection

2. What happens during condensation?

- A) Water falls from the sky as rain.
- B) Water vapor cools and forms tiny droplets.
- C) The sun heats up a lake.
- D) Snow melts into a river.

3. Where does most of the water on Earth evaporate from?

- A) Rivers
- B) Ponds
- C) Oceans
- D) Puddles

4. What provides the energy that keeps the water cycle going?

- A) The moon
- B) The wind
- C) The sun
- D) The clouds

Part B: Fill in the Blank

Write the correct answer on each line.

1. When water evaporates it changes from a liquid into a _____ .
2. Tiny water droplets in the sky group together to form _____ .
3. After rain falls on land it flows into streams, rivers, and _____ .
4. The water cycle repeats over and over, so it is called a _____ .
5. Plants release water vapor into the air through their _____ .

Part A: Multiple Choice

Circle the best answer for each question.

1. What is the first step of the water cycle?

- A) Precipitation
- B) Condensation
- C) **Evaporation**
- D) Collection

2. What happens during condensation?

- A) Water falls from the sky as rain.
- B) **Water vapor cools and forms tiny droplets.**
- C) The sun heats up a lake.
- D) Snow melts into a river.

3. Where does most of the water on Earth evaporate from?

- A) Rivers
- B) Ponds
- C) **Oceans**
- D) Puddles

4. What provides the energy that keeps the water cycle going?

- A) The moon
- B) The wind
- C) **The sun**
- D) The clouds

Part B: Fill in the Blank

Write the correct answer on each line.

1. When water evaporates it changes from a liquid into a gas .
2. Tiny water droplets in the sky group together to form clouds .
3. After rain falls on land it flows into streams, rivers, and oceans .
4. The water cycle repeats over and over, so it is called a cycle .
5. Plants release water vapor into the air through their leaves .
