

Multi-Step Word Problems

Name: _____

Date: _____

Grade: Grade 4

Part A: Fix the Sentence

Each sentence has an error. Rewrite it correctly on the line.

1. Fix the sentence:

Lily bought a jacket for \$78 and a hat for \$23. She paid with \$120. Her change is \$29 because $78 + 23 = 101$ and $120 - 101 = 29$.

Rewrite: _____

2. Fix the sentence:

A rope is 450 cm long. A worker cuts off 168 cm and then 195 cm. There are 97 cm left because $450 - 168 = 282$ and $282 - 195 = 97$.

Rewrite: _____

3. Fix the sentence:

A store earned \$935 on Saturday and \$748 on Sunday. After paying \$580 in expenses, the profit is \$1,113 because $935 + 748 = 1,693$ and $1,693 - 580 = 1,113$.

Rewrite: _____

Part B: Fill in the Blank

Write the missing word or number on each line.

1. A plumber has 750 cm of pipe. He uses 284 cm on one job and 195 cm on another. He has _____ cm left.

2. Maya saved \$465 in January and \$390 in February. She spent \$275 on art supplies. She has \$ _____ remaining.

3. A container holds 2,000 mL of juice. After pouring out 875 mL in the morning and 640 mL at lunch, there are _____ mL left.

4. Ben earned \$340 mowing lawns and \$215 washing cars. He bought a game for \$129. He has \$ _____ left.

Part C: Short Answer

Answer each question in one or two complete sentences.

Answer Key · Multi-Step Word Problems · Grade: Grade 4

Part A: Fix the Sentence

Each sentence has an error. Rewrite it correctly on the line.

1. Fix the sentence:

Lily bought a jacket for \$78 and a hat for \$23. She paid with \$120. Her change is \$29 because $78 + 23 = 101$ and $120 - 101 = 29$.

Rewrite: Lily bought a jacket for \$78 and a hat for \$23. She paid with \$120. Her change is \$19 because $78 + 23 = 101$ and $120 - 101 = 19$.

2. Fix the sentence:

A rope is 450 cm long. A worker cuts off 168 cm and then 195 cm. There are 97 cm left because $450 - 168 = 282$ and $282 - 195 = 97$.

Rewrite: A rope is 450 cm long. A worker cuts off 168 cm and then 195 cm. There are 87 cm left because $450 - 168 = 282$ and $282 - 195 = 87$.

3. Fix the sentence:

A store earned \$935 on Saturday and \$748 on Sunday. After paying \$580 in expenses, the profit is \$1,113 because $935 + 748 = 1,693$ and $1,693 - 580 = 1,113$.

Rewrite: A store earned \$935 on Saturday and \$748 on Sunday. After paying \$580 in expenses, the profit is \$1,103 because $935 + 748 = 1,683$ and $1,683 - 580 = 1,103$.

Part B: Fill in the Blank

Write the missing word or number on each line.

1. A plumber has 750 cm of pipe. He uses 284 cm on one job and 195 cm on another. He has 271 cm left.
2. Maya saved \$465 in January and \$390 in February. She spent \$275 on art supplies. She has \$ 580 remaining.
3. A container holds 2,000 mL of juice. After pouring out 875 mL in the morning and 640 mL at lunch, there are 485 mL left.
4. Ben earned \$340 mowing lawns and \$215 washing cars. He bought a game for \$129. He has \$ 426 left.

Part C: Short Answer
